We meet at noon each Wednesday at
CASA MEXICO – 10332 FAIRVIEW AVENUE, BOISE, ID 83704

It isn’t even Halloween and our program was “creepy” and “crawly” and a
little bit “scary”! Ariel Agenbroad, from the U of I Area Extension
Education Department, thrilled and chilled the club with the good, the bad
and the ugly insects mostly
from the vegetable garden. There are 200 million
species of insects and most
wear their bones on the
outside. They multiply
because they hide and live
where others cannot live,
fly and can migrate when
food runs out. Insects can
carry disease that effects
humans, livestock, food, forests and
buildings. The good insects make honey,
wax and silk. 80% of the world’s
population eat insects intentionally.
Some of us eat bugs unintentionally
because they are in some fruits &
vegetables. She ask that we learn to
identify the good insects and provide them with
food, water & shelter to survive and not to spray with the “kill all” bug sprays. A very
well presented and informative program that had everybody paying close attention.

This week we had 27 Lions and 2 guests – Maddie Ortiz
and Karen Ouellette. Liz Cardinale won the attendance
drawing and once again the card money stays in its
envelope. Liz also reported that 8 lions served 150
veterans on the 20th and Darlene Storck reported 7 lions
packed 500 pounds of snack back packs at the Idaho Food
Bank on the 26th.

Dan & Patty Frison, back from the USA-CANADA forum
reported 16 Lions from District 39W attended. They were
very impressed with the speakers and brought back several
fund raising ideas. Dan is holding a fund raising
committee meeting on October 11th at 6PM at the Lions Foundation Building. The
Bench Board meeting will be on the 10th of October at 6PM at the Foundation
Building. Please mark your calendars.
